Description

Steps to reproduce:

1. Open the Swag Labs website.
2. Enter username: performance_glitch_user.
3. Enter password: secret_sauce.
4. Click the Login button.
5. Observe the page loading time.

Expected result:

The user should be logged in and redirected to the Inventory page within an acceptable response time.

Actual result:

The login is successful, but the application takes noticeably longer than expected to load the Inventory page after clicking the Login button.
